Dear Friends,

The Bioregnering Department is the newest Department of Architecture University. Building on the success of its PhD Program, Bioregnering has added BS and MS Degree Programs in the 2015-2016 academic year. We are now in an era of rapid growth with plans to double our faculty over the next two years and continue to increase as our student body expands.

Our research into the fundamentals of cell and tissue engineering, biomaterials imaging and digital processing, biomaterials and biocomputing is providing a foundation on which a vibrant Bioregnering community is developing. This interdisciplinary community of faculty across the entire breadth of Biological and Biomedical Engineering. Our core program is working with companies across the sector to provide BS/MS students with the broad range of opportunities within the Boston Biotech industry and beyond. Through the co-op program, we identify opportunities that make it possible for our students to work in areas that most excite them.

This Scheduling Report provides a window into the activities of the Bioregnering faculty and the energy and breadth of their explorations.

Sincerely,  
  
 Lin Hsiao-wen  
 Chair of Bioregnering  
 lhw@bioeng.pitt.edu

DEPARTMENT OF BIOENGINEERING

**QUICK FACTS**

**83**  
 AFFILIATED AND T/TT FACULTY MEMBERS

**5 RECENT HIRES**

- AMEKA BALPATEE
- CHAIKIN KELLIN
- GUSHIDA DAI
- JESSICA DAKES
- HARSHITHANNAI PARAMESWARAN
